

reVIEW Autumn.Winter 24/25: new location, new concept

On 13 and 14 September 2023, MUNICH FABRIC START Exhibitions GmbH will offer the textile industry a late ordering date in Munich for the first time with the first edition of VIEW as reVIEW Autumn.Winter 24/25. For the first time in September, for the first time at a new venue – the MOTORWORLD.

Munich, 28 August 2023. All new and yet tried and established: starting this season, the VIEW trade shows will be launching with a new concept – the first edition of reVIEW Autumn.Winter 24/25 on 13 and 14 September 2023 with fully booked space on three areas and a large range of more than 300 international premium collections in the sectors of Fabrics, Denim & Sportswear, Additional and Design Studios. The reVIEW Autumn.Winter 24/25 thus functions for the first time as a follow-up event to the MUNICH FABRIC START, which took place in Munich from 18 to 20 July 2023. Ten weeks later, from 28 to 29 November 2023, the VIEW then will open its doors as the preVIEW for the Spring.Summer 25 season – eight weeks before the next edition of the MUNICH FABRIC START, which will gather the industry at the MOC from 23 to 25 January 2024. Not only the timing and the intention of the VIEW are changing, but also the location. The move to the Dampfdom in the MOTORWORLD, which is the most suitable trade show location not only thanks to its spectacular architecture but also because of its technical equipment, will not only mean an increase in space and thus an expansion of the exhibitor portfolio but also an improved infrastructure for the VIEW, which will now be held in the immediate vicinity of restaurants, parking facilities and a hotel.

“With the first issue of reVIEW Autumn.Winter 24/25 in September, we are maintaining the timing for the industry with two trade show dates per season: MUNICH FABRIC START took place in this period until last. In this way, our formats are well spread out in the trade show calendar and can respond to a wide variety of needs, such as the demand for a later date – both as opportunities for reordering and for rapid collection development at this point in time. In a currently volatile market and economic environment, we thus offer the industry reliability, quality, continuity and, simultaneously, exactly the flexibility it needs in these ongoing transformative times.”

Sebastian Klinder, Managing Director der MUNICH FABRIC START

During the two days of the show, reVIEW offers the industry the optimal concentrated setting to explore the most recent trends, material developments and latest innovations in a professional working atmosphere and to have important exchanges with its essential suppliers. The carefully curated portfolio includes around 300 high-quality collections in four segments from international exhibitors, including **Achille Pintos, Balli, Bellandi, Bepetex, Bureau Bo, Cafissi, Calik Denim, Cervotessile,**
